GRIP-DECK®

SELF-DRILLING SCREW

- Ceramic coating for corrosion resistance
- Available in bulk or collated (up to 3" collated)
- Self drilling for attachment to heavy gauge steel studs (12 ga. thru 20 ga.)
- Phillips drive with bugle head

Available Lengths & Sizes:

1-5/8" screw, #6 dia. Bulk or collated

2" screw, #6 dia. Bulk or collated

2-1/2" screw, #8 dia. Bulk or collated

3" screw, #8 dia. Bulk or collated

3-1/2"screw, #10 dia. Bulk only

4" screw, #10 dia. Bulk only

4-1/2" screw, #10 dia. Bulk only

5-1/2" screw, #10 dia. Bulk only

6" screw, #10 dia. Bulk only

***Bulk**

***Collated**

Recommended screw length is dependent on assembly thickness. Minimum of 4 threads penetration through the steel studs is required.
